Avec Nylsol, nous vous assurerons de répondre à vos besoins de revêtement et de vous accompagner dans la réalisation de vos projets.

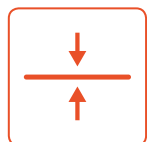

## Structure

### 2. High resistance PU protective layer

Composed by ceramic micro pearls, avoids the wear and guarantees an extreme durability and acts as an extra protector layer.

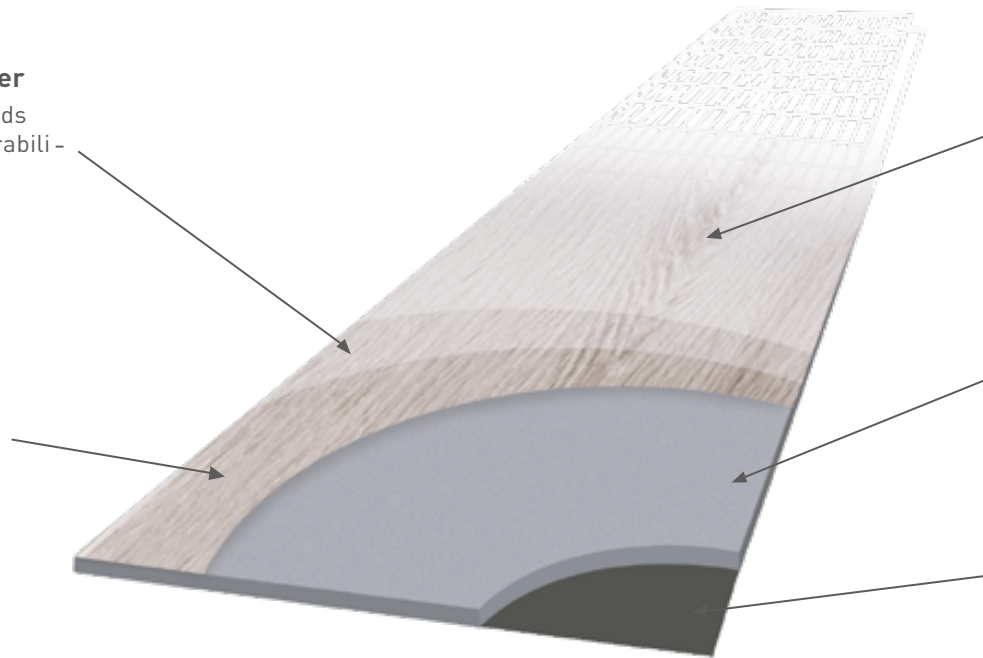

### 3. PVC decorative layer

The superior layer of vinyl is the designed element to give style to this technic pavement. It is composed by the highest quality virgin vinyl.

**Perfect thickness.**

Only 6 mm of thickness.

### 1. UV Coating extra-dur

Adds maximum resistance to UV from the sun, the colours keep stable without tarnish. This superior layer avoids the deterioration due to scratches, stains or clefts.

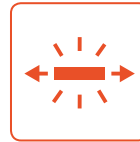

### 4. SPC Core

The SPC Core is characterised for being dense, 100% waterproof with the guarantee of resistance against expansion and shrinkage.

### 5. EVA backing with high density PE

Adaptable to small imperfections of the subfloor providing damping which can be installed on any substrate. It is resistance to humidity and temperature changes.

## Benefits and advantages

### High Stability Core.

Its dense core avoids deformations in expansion phase (23 °C to 45 °C) and shrinkage (23 °C to 5 °C).

### Good fire behavior.

Its BFL-s1 classification makes suitable to be installed in commercial areas.

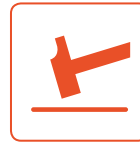

### 100% Water resistant.

Can be installed in damp areas, like bathrooms and kitchens.

### Comfort and sound insulation.

The vinyl wear layer provides cushion and absorbs the impact sound to make it a quiet floor.

### High impact resistance.

The SPC composition provide a significant rigidity and great resistance to impact and denting.

### Temperature changes resistant.

Designed to support the extreme temperatures of each season.

### Easy to install Unilin click system.

High performance click system, strong and traction resistant which makes the installation faster without necessity of glue.

### Ready for heavy use.

Material indicated to floors with a constant use (public and residential areas).  
Wear layer: 33/42.

**Ecofriendly materials.**

The different raw materials in its composition are free of formaldehydes.

**Faster installation.**

Thanks to its behaviour in temperature changes, previous acclimation to installation is not necessary.

**Ideal for children.**

The floor does not emit any kind of toxic substances.

**Pet friendly.**

The top wear layer protects the floor from pet damages as scratches or blows.

**10 years warranty in commercial use.**

**20 years warranty in domestic use.**

## Plank 225 x 1220 mm

503 **Modena Oak**

506 **Red Walnut**

603 **Toasted Oak**

800 **Nevada Oak**

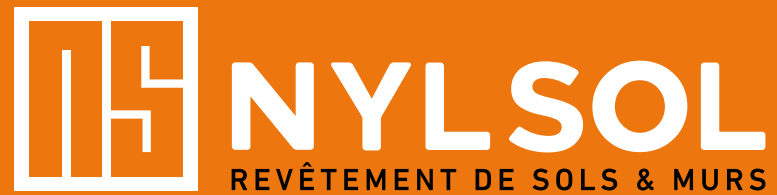

801 **Grey Beach**

## Tile 400 x 800 mm

704 **Luxor Medium**
